

„Nothing is as constant as change.“

Dear business partners,

The limited expansion opportunities at our plant in Greven-Reckenfeld had prompted us to seek for a new future-oriented location. During the last two years our new headquarters with a 3.000 m² production hall and a three-floor 1.500 m² office building has been built in the neighboring city of Emsdetten.

As of **October 1st 2016** we will conduct our business from this new headquarters. Our new postal address and contact data is as follows:

Gutenbergstraße 10, 48282 Emsdetten
Telefon: 02572 / 1537-0 / Fax: 02572 / 1537-1

Your contact persons will be available for you with new phone numbers and their known e-mail addresses. On the internet you can still find us at www.slf.eu and contact us using info@slf.eu.

We have taken the relocation to our new plant as an occasion to modernize our website and to relaunch our corporate design in a contemporary and fresh way. The name affix “Oberflächentechnik” (German for “surface technology”) in the old logo has been replaced with “Smart Surface Solutions” as a consequence of our growing international activities. The company’s name itself, **SLF Oberflächentechnik GmbH**, of course does not change. These changes do as a matter of course not have any implication on the company’s ownership structure. SLF Oberflächentechnik GmbH is and will continue to be closely linked to the families Schlick, Gaidies und Bahlinghorst.

Our new, modern and larger headquarters puts us in the position to respond to your surface treatment requirements with our first-class products and services better than ever before.

On behalf of the entire team I am looking forward to continuing a good business partnership with you.

SLF Oberflächentechnik GmbH

F. Gaidies
Managing Partner
